Pasolini: a contemporary gaze

30th July 14th August 2022

Pulchri Studio - The Hague - Netherlands

curated by Virginia Monteverde

Art Commission in collaboration with Etherea Art Gallery, the Italian Institute of Culture of Amsterdam and the Pulchri Studio of The Hague presents:

"Pasolini: a contemporary gaze "

the exhibition of contemporary art dedicated to one of the greatest Italian intellectuals of the previous century, Pier Paolo Pasolini, on the centenary of his birth.

Writer, poet and film director, Pier Paolo Pasolini, a controversial character for his unconventional and often contradictory positions, has left an important legacy to Italian culture, with his work both marking his time and standing as a prophecy of what society would become.

The artists tackle in this exhibition the themes of Pasolini's thought, expressed in the different choices of Pasolini's artistic language, to interpret and shape reality.

Six Italian artists and two artists from the Netherlands, who lived in Italy for a long time, will feature in this exhibition, that will be located in the prestigious spaces of the Pulchri Studio in The Hague from the 30th of July to the 14th of August 2022.

Each with their own style, with their own sensitivity, through various techniques of contemporary art, the artists propose their own reflection on the social, anthropological and cultural phenomena expressed in the work of PPP.

Artists: Federico Bonelli, Marcela Cernadas, Pier Giorgio De Pinto, Elisabetta Di Sopra, Sylvestre Gauvrit, Carla Iacono, Viviana Milan, Anne-Claire van den Elshout.
